## 商用炒菜机系列

The automatic cooking machine is a modern technology product.

It is a professional artificial cooking machine, which puts the prepared main ingredients, ingredients and seasonings all at once. After setting the program, it automatically heats the oil, stirs fry, and controls the heat. A smart device that can automatically cook without experience.

The automatic cooking machine can achieve multi-purpose functions with easy operations, truly making the cooking processes without oil fume, time saving, labor saving, non-sticky, non-overflowing. Pot body automatically sealed fresh, maintain Chinese dishes' traditional craftsmanship and color, make the fried dishes tender, delicious and nutritious.

## Intelligent IOT

智能物联 在线掌控全局

The intelligent kitchen management system collects big data of equipment operation in real time, conducts comprehensive analysis and management of equipment energy consumption status, operating status, maintenance status and electronic recipe application status, and reduces operating losses caused by equipment failure.

All-round remote analysis and management eliminates the need for a huge management team to manage each store, effectively saving operating costs.

智能后厨管理系统实时采集设备运营大数据，对设备能耗状态，运行状态，维护状态及电子菜谱应用状态进行全方位的分析和管理，减免因设备故障而造成的运营损失。全方位远程分析与管理，不再需要庞大的管理团队来管理每一个门店，有效节约运营成本。

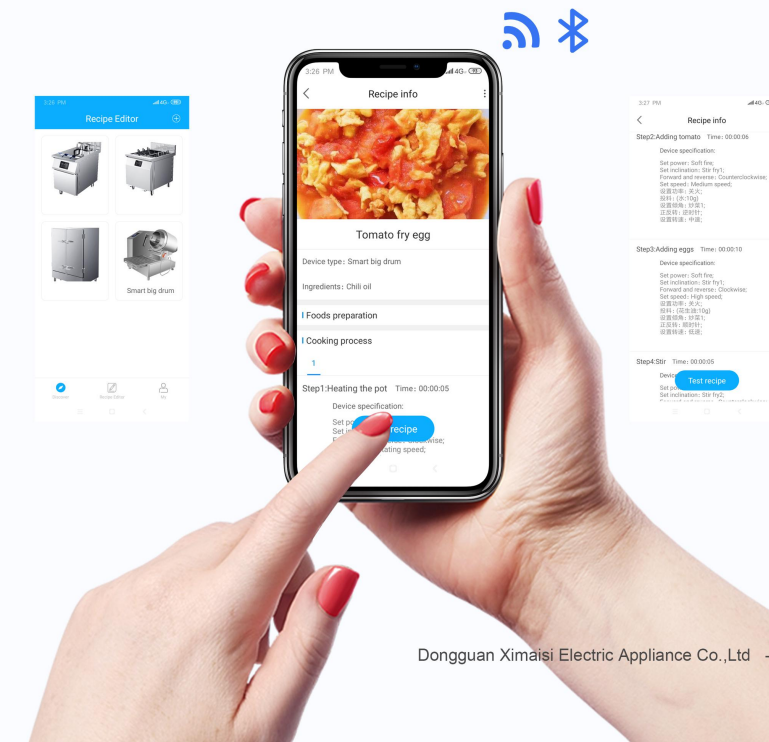

## App Controls Everything

随时随地一手掌握 三大APP 开启智能物联新时代

Standardized recipes realize overall intelligent control, automatic temperature and time control, and simple operation can cook delicious dishes from the five-star chef skills.

Mobile phone editing recipes, one-key cooking, simple operation, stable output of dishes, saving money and worry. One-click management of all equipment in the store, easy maintenance of daily routine operations, early grasp of equipment operation information, and protection of terminal operation.

标准化菜谱实现整体的智能操控，全自动温度及时间控制，简单操作就可以烹饪出五星厨师书平的美味佳肴。手机编辑菜谱，一键烹饪，操作简单，菜品品质输出稳定省钱即省心。一键管理门店所有的设备，轻松维护每日常规运营，提早掌握设备运行信息，为终端运行保驾护。
